

## NARROW FINGER

### HIGH DENSITY

NAWA carries a full line of high density wiring duct. This duct, sometimes called "narrow finger" duct, has a slot width of 4mm. The smaller fingers and smaller slots are designed for applications with a higher number of entries into the wiring duct. NAWA's wiring duct is made from high impact, self-extinguishing, warp-proof PVC. NAWA maintains a large selection of both grey and white high density wiring duct in stock.

### BASE HOLE PATTERNS

### 4MM DUCT

Part #	Nominal Size	External Dimensions		Length	Hole Pattern	Carton Quantity	Total Length
		W x H Inches	Width (W) Inches (mm)
